

September 2020

As the Country Re-opens, the Horses are at the Ready

In recent months, the majority of us have had to sit and wait. We have had to wait in our proverbial stalls, waiting to get back to normal life. Watching for someone to pull the trigger and let the races start.

The country has seen the jobless rate drop and people are going back to work. The gun has been fired! The nation has shifted back to economic growth and MediaFast is ready to contribute. Businesses still have limitations. This is where we come in. Our unique products allow communication between customer and employee. We are looking forward to what is turning out to be a record breaking month!

This Month's Case Study: Radian Flex

Thank you for all of your help on these. They're starting to arrive to customers and we already have meetings setup to discuss the product.

-Joshua Sellers
